   @365SantaRosa

365 Recreational Cannabis started in Washington state as a medical dispensary in 2012 in order to help the Shoreline community have access to cannabis products and information. As the industry evolved we developed into a recreational cannabis retailer in 2015. The 365 team gained traction and opened a second location in Eastern Washington in 2018. Continued success has allowed us to open our first shop in California in the beautiful city of Santa Rosa.

Our Shoreline, WA location

Driven by our passion for helping people and sharing the benefits of marijuana with others, 365 prioritizes working with local vendors and companies that value education and want to be involved with this community. Vendor events allow us to share knowledge and new products with all of you. We are always looking for the highest quality products and the best prices possible.

365 Recreational has created an all-encompassing cannabis experience by featuring a professional storefront with knowledgeable, experienced staff ready to answer all questions customers may have. 365 Recreational is a judgment-free atmosphere that caters to everyone, from long-time cannabis enthusiasts to first-timers seeking an introduction to the market.

Our company has thrived off of community involvement and plans on doing the same here in Santa Rosa. We will host a number of community drives and functions, such as canned food drives for local homeless shelters. Giving back to the community is of utmost importance to the 365 Recreational team and we intend to do as much as we can to help.
